

Cookies Information

What are Cookies

A cookie is a simple text file that is memorized on the computer or the mobile device of the user from the server of a web site and that can be read or recuperated by the server itself. It contains some information and allows the web to remember, for example, the preferences of the user or the product in its cart. The Directive on Electronic Communications and the Measure of the Italian Garante Privacy of May 8 2014, nr. 229, in the field of "Individuation of the simplifying procedures for the informative and acquisition of the consensus for the use of the cookie" foresee that the use of cookie can be allowed only through the consent of the user.

Why we use Cookies

The Joint Controllers use the cookie to provide a better and richer browsing experience.

Type of cookie used.

We have classified the cookie that we use based on the type of use in:

1) Technical Cookie:

- a) of browsing or session
- b) of functionality
- c) analytics

2) Third-Party Cookies

Technical Cookies

a) Browsing or Session Cookie

Are used for the purpose of making the transmission of a communication on an electronic communication net, and strictly necessary to allow special functions required that guarantee the normal surfing and fruition of the website. These cookies can be then distinguished in function of their permanence on the device of the user: those that automatically erase itself at the end of each session, are called "session cookie" if vice versa they have a longer life, we talk about permanent cookie.

We use the internet browsing cookie or session for:

- Authenticate to access reserved areas
- Manage the preferences and personal settings of the user
- Improve the surfing safety
- Prevent fraudulent activity

For the installation of these cookies is not requested the authorization of the user.

b) Functionality cookies

Are used to provide services or to remember the settings to improve the browsing and experience of the user on our website. Allow to the user the browsing in function of a series of selected criteria.

We use the functionality cookies for:

Allowing the browsing in function of a series of selected criteria.

For the installation of these cookies is not requested the authorization of the user.

Here is the list of the above cookie:

Cookie Name	History Store
Expiration	Session
Function	This is used to track visitors' navigation and interaction on the website for internal website-optimization

Domain www.google-analytics.com

For a better understanding on this last one, please refer to the section "Third party Cookie"

Third Party Cookie

"Third party" cookies are connected to the services supplied by the third party. The third subject provides these services in exchange of information concerning the visit of the user to our website. It implies that also third party suppliers are subject to the respect of relevant legislation.

For this reason we refer to the link of the web pages of the site of the third party, in which the user could find the cookie collection forms and their related information.

Cookie Setting Section

With reference to Third party cookie

The third party cookies are connected to the services supplied by the third party. The following link are the web pages of the third party site, in which you will find the cookie collection consent forms and their related information:

BROWSER SETTINGS: HOW CAN I CONTROL THE COOKIE

The section "Guide" of the browser of the user should be of help in the management of the cookie settings. If we don't want to receive cookies, it is possible to modify the browser in a way to be informed of when they are sent. It is also possible to eliminate in every moment the cookies that have already been memorized, through the browser settings.
